REMARKS

A Sequence Listing is submitted herewith. The Sequence Listing shows sequences that were present in the subject application as filed and, therefore, does not add new matter.

The specification has been amended to insert Sequence Identifiers as appropriate. It is noted that original underlining in prior art information at pages 25, 26 and 29 have been maintained and is not indicative of amendments. In addition, the original underlining of amino acid Cysteine at page 27 of the present application does not indicate an amendment. As such, the amendments merely address a formality, and do not add new matter.

The Examiner is invited to contact Applicants' undersigned representative if there are any questions regarding the subject application. The Commissioner is authorized to debit (or credit) Deposit Account No. 50-1355 if any fee is required (or if there is any overpayment).

Respectfully submitted,

Date: July 26, 2004
